EASY WEB SCANNING

Streamline your scanning tasks with the user-friendly CaptureOnTouch Lite Web software embedded in the device. Simply connect any mobile device to the scanner by scanning the displayed QR code, allowing instant access for anyone on the same network. Connect your PC or Mac to utilise the convenient web scanning features, eliminating the necessity for software or driver installations.

SUPPORTS VARIOUS DEVICES

The DR-S250N Scanner features both USB and LAN interfaces, providing compatibility with a wide range of devices, including PCs, MacBooks, Chromebooks, and smart devices running Android and iOS. Additionally, it holds Mopria® scan certification, enabling seamless integration with Chrome OS without requiring any driver or application installation. Its versatility makes it an ideal choice for simple deployment and adaptable use across diverse workplace environments and scan workflow applications.

JOB SCANNING TO MULTIPLE LOCATIONS

The DR-S250N device offers direct scanning functionality, allowing you to configure scan jobs directly on the device for your routine workflow tasks. This feature supports direct scanning to various destinations such as Shared Folder, Mail, Printer, FTP, FTPS, and SFTP. Moreover, with the scan-to-mail function, you can effortlessly send scanned data to collaboration platforms like Microsoft Teams, enhancing teamwork and information sharing. This enables convenient one-touch operation to send your documents to predefined locations, ultimately saving time and enhancing accuracy.

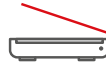

QUALITY AND PRODUCTIVITY

Achieve consistent image quality across a variety of document types with the assistance of Active Threshold and other cutting-edge image processing tools. The feeder scans a variety of documents, including passports and ID cards. Experience time-saving efficiency with rapid scanning speeds of up to 100 images per minute, allowing you to tackle heavier workloads with confidence. The device boasts suggested daily scan volumes of up to 9000 scans per day, ensuring reliability and performance even under demanding conditions.

USER MANAGEMENT

Access comprehensive central management tools designed to support your business and user environments including an easy to use web menu for managing settings, scanner management tool, and profile management to control users and Active Directory.

POWERFUL SCANNING AND OCR

CaptureOnTouch Pro is scanning software designed for PC clients, featuring an intuitive interface with simple icon-based navigation and robust document processing capabilities. Easily configure scanning jobs to save documents in various formats such as PNG, JPEG, TIFF, BMP, PPTX, Word*, Excel*, and PDF. The software supports OCR, barcode, and 2D code recognition, ensuring efficient processing of documents. Additionally, it generates index data files, facilitating seamless integration into existing workflows and document management systems.

imageFORMULA DR-S250N SPECIFICATIONS

Type	Desktop sheet-fed scanner
Document Size	Width: 50.8 mm to 216 mm Length: 54mm to 356mm Business Card: 50 mm x 85 mm - 55 mm x 91 mm Card: 86 mm x 54 mm (ISO standard) Passport: 88 mm x 125 mm (ISO standard) When scanning, be sure to first open the passport and insert it in the carrier sheet (sold separately). Scan documents up to 5,588 mm long by setting the scanner to "Long Document" mode.
Document Thickness and Weight	Plain paper: • Page Separation: 0.04 mm to 0.25 mm, 27 to 209 g/m ² • Bypass: 0.04 mm to 0.3 mm to 27 to 255 g/m ² Business card: 0.15 to 0.30 mm, 128 - 255 g/m ² Card: 1.4 mm or less Passport: 4 mm or less (including carrier sheet)
Feeding Capacity	60 sheets
Scanning Sensor	Contact image sensor
Light Source	LED
Scanning Side	Simplex / duplex
Scanning Modes	Black and White, Error Diffusion, Greyscale, Active Threshold, Advanced Text Enhancement [†] , Advanced Text Enhancement II
Scanning Resolution	100 x 100 dpi/ 150 x 150 dpi/ 200 x 200 dpi/ 240 x 240 dpi/ 300 x 300 dpi/ 400 x 400 dpi/ 600 x 600 dpi

Scanning Speed [†]	Greyscale/B&W: 200 dpi/300 dpi: 50 ppm (Simplex), 100 ipm (Duplex) Colour: 200 dpi: 50 ppm (Simplex), 100 ipm (Duplex) Colour: 300 dpi: 40 ppm (Simplex), 80 ipm (Duplex)
Interface	USB 3.2 Gen1, 10Base-T/100Base-TX/1000Base-T USB host: USB 2.0 (available only for NFC reader)
Scanner Driver	ISIS/TWAIN Driver (Windows), TWAIN Driver (Mac)
Other Functions	Folio scanning, Double feed release
External Dimensions (with trays closed)	291 mm x 267 mm x 242 mm (Trays closed) 291 mm x 600 mm x 378 mm (Trays open)
Weight (without AC adapter)	Approximately 3.4kg
Power Requirements	291 mm x 600 mm x 378 mm (Trays open)
Power Consumption	Scanning: 22 W or less In the sleep mode: 1.6 W With power switch OFF: 0.1 W or less
Operating Environment	Temperature: 10°C to 32.5°C Humidity: 20% to 80% RH
Consumables	Exchange Roller Kit
Optional accessories:	Flatbed Scanner Unit 102 Exchange Roller Kit (feed roller and retard roller) Carrier Sheet (Passport), Carrier Sheet (A4)

Notes:

[†]Actual scanning speed may vary depending on your system configuration and PC. Specifications are subject to change without notice.

*Word and Excel are only supported by CaptureOnTouch V5 Pro.

BUNDLED SOFTWARE

The dedicated software supplied with DR-series scanners, is a convenient tool that allows you to choose the most appropriate scanning method for your needs. Up to nine routine scan tasks can be registered as jobs, which can be accessed directly from the scanner's operating panel.

Barcode module / 2D code module

These software modules allows 1 dimensional or 2 dimensional code recognition using the scanner driver. The 2D code module supports a variety of 2D code types including QR code.
