

Migrate from G to Z

And get more features, flexibility and security from your printers

If you know Zebra's G-Series, you'll love our ZD Series desktop printers. Building on the legacy of the proven and popular GK and GX Series, ZD421 and ZD621 printers give you so much more, delivering advanced features and capabilities for a new era of acumen and forward flexibility.

Elevate your expectations and your printing with best-in-class features

Upgrade your G-Series and get more:

Print up to 30% faster

Backwards compatibility – use existing formats and supplies

Improved media sensors for virtually any media type

More standard connectivity to connect your way

Field upgradeable options when you're ready

Enhanced interface for simplified user operation

More options and models including Healthcare and RFID

Simple to setup, use, manage and secure

Don't compromise. Get it all with Zebra's ZD Series.

See which ZD Series printer is right for your needs.
